WP 7 – Bearing Currents and Voltages

Department: RICE
Research report no.: 22190-007-2022
Report type: testing report
Authors: Bohumil Skala
Project leader: Zdenek Peroutka / Bohumil Cejka
Pages: 50
Release date: 20. 3. 2022
CEP Classification: 2.2 Electrical engineering, Electronic engineering,
Information engineering - Electrical and electronic
engineering

Customer:
VEM Sachsenwerk Gmbh

German republic

Supplier:
University of West Bohemia in Pilsen
Research and Innovation Centre
for Electrical Engineering
Univerzitní 8
306 14 Plzeň

Abstract

This research report deals with measurement of bearings currents and voltages. The motor is equipped with two independent bearings protections. Each way should be switch on or off. The report summarize the results of measurement. An integral part are data files where all measurements are evaluated.

Keywords

Bearing currents, shaft voltage, probe current, brush
